Is the COVID-19 Vaccine available for adolescents ?

Yes, the Pfizer COVID-19 vaccine is now available for adolescents aged 12-15 years.

- Those who are fully vaccinated do not have to quarantine if they are exposed to someone with COVID-19, so that means no missing school, sporting events or other social activities due to an exposure.

Visit **vaccinate.virginia.gov** or call **877-VAX-IN-VA (877-829-4682)** to find an appointment for your child's FREE COVID-19 vaccine.
