INSTRUCTIONAL GOALS AND OBJECTIVES

The Surry County School Board develops and implements a program of instruction for grades kindergarten through 12 that is aligned to the Standards of Learning established by the Board of Education and that meets or exceeds the requirements of the Board of Education. The program of instruction emphasizes reading, writing, speaking, mathematical concepts and computations, proficiency in the use of computers and related technology, computer science and computational thinking, including computer coding, and scientific concepts and processes; essential skills and concepts of citizenship, including knowledge of Virginia history and world and United States history, economics, government, foreign languages, international cultures, health and physical education, environmental issues and geography necessary for responsible participation in American society and in the international community; fine arts, which may include, but need not be limited to, music and art, and practical arts; knowledge and skills needed to qualify for further education, gainful employment, or training in a career or technical field; and development of the ability to apply such skills and knowledge in preparation for eventual employment and lifelong learning and to achieve economic self-sufficiency.

The School Board also implements:

1. programs in grades kindergarten through three that emphasize developmentally appropriate learning to enhance success
2. programs based on prevention, intervention, or remediation designed to increase the number of students who earn a high school diploma and to prevent students from dropping out of school; such programs include components that are research-based
3. career and technical education programs incorporated into the kindergarten through grade 12 curricula
4. educational objectives in middle and high school that emphasize economic education and financial literacy pursuant to Va. Code § 22.1-200.03
5. early identification of students with disabilities and enrollment of such students in appropriate instructional programs consistent with state and federal law
6. early identification of gifted students and enrollment of such students in appropriately differentiated instructional programs
7. educational alternatives for students whose needs are not met in programs prescribed elsewhere in the Standards of Learning
8. adult education programs for individuals functioning below the high school completion level

9. a plan to make achievements for students who are educationally at risk a divisionwide priority that includes procedures for measuring the progress of such students

10. an agreement for postsecondary degree attainment with a community college in Virginia specifying the options for students to complete an associate's degree or a one-year Uniform Certificate of General Studies from a community college concurrent with a high school diploma; such agreement specifies the credit available for dual enrollment courses and Advanced Placement courses with qualifying exam scores of three or higher

11. a plan to notify students and their parents of the availability of dual enrollment and Advanced Placement classes; career and technical education programs, including internships, externships, apprenticeships, credentialing programs, certification programs, licensure programs, and other work-based learning experiences; the International Baccalaureate Program, and Academic Year Governor's School Programs; the qualifications for enrolling in such classes, programs and experiences; and the availability of financial assistance to low-income and needy students to take the Advanced Placement and International Baccalaureate examinations; this plan includes notification to students and parents of the agreement with a community college in Virginia to enable students to complete an associate's degree or a one-year Uniform Certificate of General Studies concurrent with a high school diploma

12. identification of students with limited English proficiency and enrollment of such students in appropriate instructional programs, which programs may include dual language programs whereby such students receive instruction in English and in a second language

13. early identification, diagnosis, and assistance for students with reading and mathematics problems and provision of instructional strategies and reading and mathematics practices that benefit the development of reading and mathematics skills for all students

14. incorporation of art, music, and physical education as a part of the instructional program at the elementary school level

15. a program of physical activity available to all students in grades kindergarten through five consisting of at least 20 minutes per day or an average of 100 minutes per week during the regular school year and available to all students in grades six through 12 with a goal of at least 150 minutes per week on average during the regular school year; such program may include any combination of (i) physical education classes, (ii) extracurricular athletics, (iii) recess, or (iv) other programs and physical activities deemed appropriate by the School Board

16. a program of student services for grades kindergarten through grade 12 designed to aid students in their educational, social, and career development

17. the collection and analysis of data and the use of the results to evaluate and make decisions about the instructional program

18. a program of instruction in each government course in the school division on all information and concepts in the civics portion of the U.S. Naturalization test

Timely written notification is provided to the parents of any student who:

- undergoes literacy and Response to Intervention screening and services;
- does not meet the benchmark on any assessment used to determine at-risk learners in preschool through grade 12, which notification includes all such assessment scores and subscores and any intervention plan that results from such assessment scores or subscores; or
- receives reading intervention services. Parents of each student who receives reading intervention services are notified before the services begin.

Adopted: July 13, 2021

STUDENT EVALUATION AND GRADING

Elementary Level (Grades Pre-Kindergarten – 4)

Students in Pre-Kindergarten through grade 4 will receive a comprehensive report card at the end of each marking period and interim reports at the mid-point of each marking period. Report cards will provide information to parents about the student's academic achievement, attendance, behavior, and possibly additional comments the teacher may wish to make.

The available codes (all codes are not used in all grade levels) for marking the elementary report card for grades Pre-Kindergarten and Kindergarten are as follows:

E = Excellent. The student consistently does well on grade level requirements and is able to apply knowledge gained to new situations.

G = Good. The student has mastered most of the grade level requirements, and is above average in initiative and application of knowledge.

S = Satisfactory. The student meets program and grade level requirements.

N = Needs Improvement. The student is progressing, but not meeting grade level requirements.

U = Unsatisfactory. The student is not making progress and skills are not mastered.

/ = Not Evaluated at this time.

Elementary students in grades 1 – 4 will be graded according to the 10-Point Grading scale approved by the Surry County School Board in March 2010. The grading scale is as follows:

<u>Letter</u>	<u>Numerical Scale</u>
A = Excellent	90-100
B = Above Average	80-89
C = Average	70-79
D = Below Average	60-69
F = Unsatisfactory	59 and below

In evaluating the performance of students at a given grade level, the teacher may take into account, observations, formal and informal assessments as they relate to the course objectives.

Secondary Level (Grades 5 – 12)

Students in grades 5 – 12 will be issued report cards at the end of each marking period. These report cards will be supplemented by interim reports at the mid-point of each marking period. The comprehensive report card at the end of each marking period provides information to parents about their child’s performance in core and related arts courses. Space is also provided for comments the teacher may wish to make.

Middle and high school students will be graded according to the 10-Point Grading Scale approved by the Surry County School Board in March 2010. The grading scale is as follows:

<u>Letter</u>	<u>Numerical Scale</u>
A = Excellent	90-100
B = Above Average	80-89
C = Average	70-79
D = Below Average	60-69
F = Unsatisfactory	59 and below

Adopted: March 2010
Revised: April 2020

NOTIFICATION OF LEARNING OBJECTIVES

I. Annual Notice

At the beginning of each school year, each school within the Surry County School Division provides to its students' parents or guardians information on the availability of and source for receiving:

- the learning objectives developed in accordance with the Standards of Accreditation to be achieved at their child's grade level, or, in high school, a copy of the syllabus for each of their child's courses;
- the Standards of Learning (SOLs) applicable to the child's grade or course requirements and the approximate date and potential impact of the child's next SOL testing;
- an annual notice to students in all grade levels of all requirements for Board of Education-approved diplomas; and
- the board's policies on promotion, retention and remediation.

The superintendent certifies to the Department of Education that the notice required by this policy has been given.

II. Notice of Credits Needed for Graduation and of the Right to a Free Public Education

- A. The school board notifies the parents of rising eleventh and twelfth grade students of
- the requirements for graduation pursuant to the standards for accreditation and
 - the requirements that have yet to be completed by the individual student.
- B. The school board notifies the parent of students with disabilities who have an Individualized Education Program (IEP) and who fail to meet the graduation requirements of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Va. Code § 22.1-213 et seq.
- C. The school board notifies the parent of students who fail to graduate or who fail to achieve graduation requirements as provided in the Standards of Accreditation and who have not reached 20 years of age on or before August 1st of the school year of the right to a free public education. If the student who does not graduate or complete such requirements is a student for whom English is a second language, the school board notifies the parent of the student's opportunity for a free public education in accordance with Va. Code § 22.1-5.

Requirements

ACADEMIC FREEDOM

The School Board seeks to educate young people in the democratic tradition, to foster a recognition of individual freedom and social responsibility, and to inspire meaningful awareness of and respect for the Constitution and the Bill of Rights.

Freedom of individual conscience, association, and expression are encouraged and fairness in procedures is observed both to safeguard the legitimate interests of the schools and to exhibit by appropriate examples the basic objectives of a democratic society as set forth in the Constitutions of the United States and the Commonwealth of Virginia.

Students may express their beliefs about religion in homework, artwork, and other written and oral assignments free from discrimination based on the religious content of their submissions. Such home and classroom work is evaluated by ordinary academic standards of substance and relevance and against other legitimate pedagogical concerns identified by the school.

INDC Religion in the Schools

SCHOOL YEAR/SCHOOL DAY

School Year

The length of the school year is at least 180 teaching days or 990 teaching hours. The School Board offers in-person instruction to each student enrolled in an elementary or secondary school in the division for at least 990 teaching hours except as otherwise permitted by Va. Code § 22.1-98.C.4 or Article 3 of Chapter 14 of Title 22.1 of the Code of Virginia. Days on which a school or schools or all the schools in the division are closed due to severe weather or other emergencies are made up as provided below if necessary to meet these requirements.

Students are provided a minimum of 680 hours of instructional time in elementary school in the four academic disciplines of English, mathematics, science, and history and social science.

Unstructured recreational time that is intended to develop teamwork, social skills, and overall physical fitness may be included in the calculation of total instructional time or teaching hours for elementary school, provided that such unstructured recreational time does not exceed 15 percent of total instructional time or teaching hours.

Make Up Days

If severe weather conditions or other emergency situations result in the closing of a school or schools or all the schools in the school division or in an unscheduled remote learning day for a school or schools in the division for

- five or fewer days, all missed days are made up by adding teaching days to the school calendar or extending the length of the school day;
- six days or more, the first five days plus one day for each two days missed in excess of the first five are made up by adding teaching days to the school calendar or extending the length of the school day.

If severe weather conditions or other emergency situations result in the closing of any school in the school division and such school has been unable to meet the 180 teaching day requirement, the school division may make up the missed teaching days by providing its students with instructional hours equivalent to such missed teaching days to meet the minimum 990 teaching hour requirement.

If severe weather conditions or other emergency situations result in the closing of any school in the school division for in-person instruction, the school division may declare an unscheduled remote learning day whereby the school provides instruction and student services that are consistent with guidelines established by the Department of Education to ensure the equitable provision of such services.

The Board of Education may waive the requirement that the school division provide additional teaching days or teaching hours to compensate for school closings resulting from a declared state of emergency or severe weather conditions or other

emergency situations under certain circumstances. If the School Board desires a waiver, it will submit a request to the Board of Education. The request will include evidence of efforts that have been made by the school division to reschedule as many days as possible and certification by the superintendent and chairman of the School Board that every reasonable effort for making up lost teaching days or teaching hours was exhausted before requesting a waiver. If the waiver is denied, the school division will make up the missed instructional time.

The Board of Education waives the requirement that school divisions provide additional teaching days or teaching hours to compensate for school closings resulting from an evacuation directed and compelled by the Governor pursuant to Va. Code § 44-146.17 for up to five teaching days. If the School Board desires such a waiver, it notifies the Board of Education and provides evidence of efforts that have been made by the school division to reschedule as many days as possible and certification by the superintendent and chair of the School Board that every reasonable effort for making up lost teaching days or teaching hours was exhausted. After receiving such notification, the Board of Education grants the waiver and there is no proportionate reduction in the amount paid by the Commonwealth from the Basic School Aid Fund. Further, the local appropriations for educational purposes necessary to fund 180 teaching days or 990 teaching hours shall not be proportionally reduced by the local appropriating body due to any reduction in the length of the term of any school or the schools in a school division permitted by such waiver.

School Calendar

The School Board establishes the division's calendar in accordance with state law. The School Board establishes teaching contracts in accordance with applicable regulations of the Board of Education to include contingencies for making up teaching days and teaching hours missed for emergency situations.

An advisory committee composed of teachers, parents and school administration may be utilized to recommend a proposed calendar to the superintendent. The recommendation of this committee is advisory.

Joint or Regional Schools

School boards operating joint or regional high schools, including regional charter schools, offering a specialized curriculum leading to a high school diploma and a postsecondary credential, such as industry certification, career certificate, or degree may, by agreement, establish alternative schedules for the delivery of instruction. Those schedules may include alternatives to standard school day and year requirements, subject to the issuance of any necessary waivers by the Board of Education and relevant Board of Education regulations.

Certification

The superintendent and School Board chair certify the total number of teaching days and teaching hours each year as part of the annual report to the Board of Education.

MOMENT OF SILENCE

One minute of silence is observed in each classroom in the division every day.

During such period of silence, the teacher responsible for each classroom takes care that all pupils remain seated and silent and make no distracting display so that each pupil may, in the exercise of individual choice, meditate, pray, or engage in any other silent activity which does not interfere with, distract, or impede other pupils in the like exercise of individual choice.

Adopted: July 12, 2022

Legal Ref.: Code of Virginia, 1950, as amended, § 22.1-203.

PLEDGE OF ALLEGIANCE

The Pledge of Allegiance, as established in 4 U.S.C. § 4, is recited daily in each classroom of the Surry County school division.

During the recitation of the Pledge, students stand and recite the Pledge while facing the flag with their right hands over their hearts or in an appropriate salute if in uniform.

No student is compelled to recite the Pledge if the student or the student's parent or legal guardian objects on religious, philosophical, or other grounds to the student's participating in this exercise. Students who are exempt from reciting the Pledge shall quietly stand or sit at their desks while others recite the Pledge and shall make no display that disrupts or distracts those who are reciting the Pledge.

Appropriate accommodations are made for students who are unable to comply with the procedures described herein due to disability.

Adopted: April 13, 2021

Legal Refs: 4 U.S.C. § 4.

Code of Virginia, 1950, as amended, § 22.1-202.

NATIONAL MOTTO

The statement “In God We Trust,” the National Motto, enacted by Congress in 1956” is posted in a conspicuous place in each school for all students to read.

Adopted: July 14, 2020

Legal Ref: Acts 2003, c. 902.

BILL OF RIGHTS OF THE
CONSTITUTION OF THE UNITED STATES

The Bill of Rights of the Constitution of the United States is posted in a conspicuous place in each school for all students to read.

Adopted: July 12, 2022

Legal Ref: Acts 2003, c. 902.

CURRICULUM DEVELOPMENT AND ADOPTION

The curriculum is a coherent and comprehensive plan for teaching and learning built upon a framework that promotes continuity and the cumulative acquisition and application of skills. The curriculum states clearly and specifically what students are expected to know and be able to do by grade level and course. Surry County School Board curricula meets or exceeds the requirements of and are aligned with the Standards of Learning.

Adopted: July 12, 2022

Legal Refs.: Code of Virginia, 1950, as amended, §§ 22.1-78, 22.1-253.13:1.

Cross Ref.: AF Comprehensive Plan

CAREER AND TECHNICAL EDUCATION

The Surry County School Board provides career and technical educational programs incorporated into the kindergarten through twelfth grade curricula that include

- knowledge of careers and all types of employment opportunities including, but not limited to, apprenticeships, entrepreneurship and small business ownership, the military, and the teaching profession, and emphasize the advantages of completing school with marketable skills;
- career exploration opportunities in the middle school grades; and
- competency-based career and technical education programs which integrate academic outcomes, career guidance and job-seeking skills for all secondary students based on labor market needs and student interest. Career guidance includes counseling about available employment opportunities and placement services for students exiting school; and
- annual notice on its website to enrolled high school students and their parents of (i) the availability of the postsecondary education and employment data published by the State Council of Higher Education on its website and (ii) the opportunity for such students to obtain a nationally recognized career readiness certificate at a local public high school, comprehensive community college or workforce center.

The School Board develops and implements a plan to ensure compliance with this Policy. This plan is developed with the input of area business and industry representatives and local comprehensive community colleges and is submitted to the Superintendent of Public Instruction in accordance with the timelines established by federal law.

The School Board may establish High School to Work Partnerships or delegate the authority to establish High School to Work Partnerships to the division's career and technical education administrator or the administrator's designee, in collaboration with the school counselor office of each high school in the school division, and educate high school students about opportunities available through High School to Work Partnerships.

The School Board may enter into agreements for postsecondary course credit, credential, certification, or license attainment, referred to as College and Career Access Pathways Partnerships, with comprehensive community colleges or other public institutions of higher education or educational institutions that offer a career and technical education curriculum. College and Career Access Pathways Partnerships specify

- the options for students to take courses as part of the career and technical education curriculum that lead to course credit or an industry-recognized credential, certification, or license concurrent with a high school diploma;
- the credit, credentials, certifications, or licenses available for such courses; and

- available options for students to participate in pre-apprenticeship and apprenticeship programs at comprehensive community colleges concurrent with the pursuit of a high school diploma and receive college credit and high school credit for successful completion of any such program.

Adopted: August 13, 2019

Legal Refs.: Code of Virginia, 1950, as amended, §§ 22.1-227.1, 22.1-253.13:1.

Cross Ref.: IJ Guidance and Counseling Program

HEALTH EDUCATION/PHYSICAL EDUCATION

Students receive health instruction and physical training as prescribed by the Board of Education and approved by the Board of Health.

Such health instruction

- incorporates standards that recognize the multiple dimensions of health by including mental health and the relationship of physical and mental health so as to enhance student understanding, attitudes, and behavior that promote health, well-being and human dignity, and
- may include an age-appropriate program of instruction on the safe use of and risks of abuse of prescription drugs that is consistent with curriculum guidelines developed by the Board of Education and approved by the Board of Health.

The Surry County school division provides a program of physical activity available to all students in grades kindergarten through five consisting of at least 20 minutes per day or an average of 100 minutes per week during the regular school year and available to all students in grades six through 12 with a goal of at least 150 minutes per week on average during the regular school year. Such program may include any combination of physical education classes, extracurricular athletics, recess or other programs and physical activities. Any physical education class offered to students in grades seven and eight includes at least one hour of personal safety training per school year in each such grade level that is developed and delivered in partnership with the local law-enforcement agency and consists of situational safety awareness training and social media education.

TEACHING ABOUT DRUGS, ALCOHOL AND TOBACCO

Surry County Public Schools provides instruction concerning

- drugs and drug abuse,
- the public safety hazards and dangers of alcohol abuse, underage drinking, underage marijuana use, and drunk driving,
- the health and safety risks of using tobacco products, nicotine vapor products, and alternative nicotine products, and
- gambling and the addictive potential thereof.

FAMILY LIFE EDUCATION (FLE)

Generally

The Surry County School Board provides Family Life Education (FLE) based on the FLE Standards of Learning (SOL) and curriculum guidelines developed by the Board of Education. The SOL objectives related to dating violence and the characteristics of abusive relationships are taught at least once in middle school and at least twice in high school. The high school FLE curriculum incorporates age-appropriate elements of effective and evidence-based programs on the prevention of dating violence, domestic abuse, sexual harassment, including sexual harassment using electronic means, and sexual violence, human trafficking, and the law and meaning of consent. Such age-appropriate elements of effective and evidence-based programs on the prevention of sexual violence may include instruction that increases student awareness of the fact that consent is required before sexual activity. The FLE curriculum offered in any school incorporates age-appropriate elements of effective and evidence-based programs on the importance of the personal privacy and personal boundaries of other individuals and tools for a student to use to ensure that he respects the personal privacy and personal boundaries of other individuals. The FLE curriculum incorporates age-appropriate elements of effective and evidence-based programs on the harmful physical and emotional effects of female genital mutilation; associated criminal penalties; and the rights of the victim, including any civil action pursuant to Va. Code § 8.01-42.5.

The FLE curriculum may incorporate age-appropriate elements of effective and evidence-based programs on the prevention, recognition, and awareness of child abduction, child abuse, child sexual exploitation and child sexual abuse, and in any such curriculum offered in high school, human trafficking of children.

The School Board reviews its family life education curricula at least once every seven years, evaluates whether the curricula reflects contemporary community standards, and revises the curricula if necessary.

Right of Parental Review

A parent or guardian has the right to review the family life curricula, including all supplemental materials used in the program. A complete copy of all printed materials not subject to copyright protection and a description of all audio-visual materials is made available through any available parental portal and kept in the school library or office and made available for review to any parent or guardian during school office hours before and during the school year. The audio-visual materials are made available to parents for in-person review, upon request, on the same basis as printed materials are made available.

The School Board develops and distributes to the parents or guardians of students participating in the FLE program and posts for public viewing on the division's

website a summary designed to assist them in understanding the program implemented in its school division and to encourage parental guidance and involvement in the instruction of the students. Such information reflects the curricula of the program as taught in the classroom. The following statement is included on the summary: "Parents and guardians have the right to review the family life education program offered by their school division, including written and audio-visual educational materials used in the program. Parents and guardians also have the right to excuse their child from all or part of family life education instruction."

Adopted: July 12, 2022

Legal Refs.: Code of Virginia, 1950, as amended, §§ 22.1-207.1, 22.1-207.1:1, 22.1-207.2.

CHARACTER EDUCATION

The Surry County School Board provides, within its existing program or as a separate program, a character education program in its schools. The character education program may occur during the regular school year, during the summer in a youth development academy offered by the school division, or both. The purpose of the program is to foster civic virtues and personal character traits so as to improve the learning environment, promote student achievement, reduce disciplinary problems and develop civic-minded students of high character. The program is cooperatively developed with students, parents and the community. Specific character traits emphasized may include trustworthiness, respect, responsibility, fairness, caring and citizenship.

Character education is interwoven into the school procedures and environment so as to instruct primarily by example, illustration and participation, in such a way as to complement the Standards of Learning. Classroom instruction may also be used to supplement the program. The program also addresses the inappropriateness of bullying, as defined in Va. Code § 22.1-276.01. Parents have the right to review any audio-visual materials that contain graphic sexual or violent content used in any anti-bullying program. Prior to the use of any such material, the parent of a child participating in such a program is provided written notice of the parent's right to review the material and the right to excuse the child from participating in the part of such program utilizing such material.

The character education program

- specifies those character traits to be taught, selecting from those which are common to diverse social, cultural and religious groups;
- is implemented at the elementary and secondary levels;
- provides for relevant professional development and adequate resources; and
- includes a method for program evaluation.

Character education is intended to educate students regarding those core civic values and virtues which are efficacious to civilized society and are common to the diverse social, cultural, and religious groups of the Commonwealth. It shall not include indoctrination in any particular religious or political belief. Consistent with this purpose, Virginia's civic values, which are the principles articulated in the Bill of Rights (Article I) of the Constitution of Virginia and the ideals reflected in the seal of the Commonwealth, as described in Va. Code § 1-500, may be taught as representative of such civic values.

Adopted: July 13, 2021

Teaching About Controversial Issues
Religion in the Schools

DRIVER EDUCATION

The Surry County School Board offers a program of driver education in the high schools in the safe operation of motor vehicles. The program includes instruction concerning

- alcohol and drug abuse;
- aggressive driving;
- the dangers of distracted driving and speeding;
- motorcycle awareness;
- organ and tissue donor awareness;
- fuel-efficient driving practices; and
- traffic stops, including law-enforcement procedures for traffic stops, appropriate actions to be taken by drivers during traffic stops, and appropriate interactions with law-enforcement officers who initiate traffic stops.

The program also includes an additional minimum 90-minute parent/student driver education component as part of the classroom portion of the driver education curriculum. However, no student who is (1) at least 18 years of age, (2) an emancipated minor, or (3) an unaccompanied minor who is not in the physical custody of the student's parent or guardian is required to participate in the parent/student driver education component. The parent/student driver program emphasizes (i) parental responsibilities regarding juvenile driver behavior, (ii) juvenile driving restrictions pursuant to the Code of Virginia, (iii) the dangers of driving while intoxicated and underage consumption of alcohol, and (iv) the dangers of distracted driving.

The School Board establishes fees, that do not exceed the limit established by the Department of Education, for the behind-the-wheel portion of the program. The School Board may waive the fee or surcharge in whole or in part for those students it determines cannot pay the fee or surcharge.

Any student who participates in a driver education program must meet the academic requirements established by the Board of Education. No student is permitted to operate a motor vehicle without a learner's permit or a license. Necessary certification of students' academic standing and compliance with compulsory attendance laws is provided by the administration to the Department of Motor Vehicles upon request, in accordance with state law.

Driver education instructors possess valid driver's licenses and maintain satisfactory driving records. Any teacher of behind-the-wheel instruction who receives six or more demerit points in a 12-month period will be suspended from teaching driver education for 24 months.

At the beginning of each school year and thereafter as necessary, the superintendent reports to the Department of Motor Vehicles the name and driver's license number of all persons providing instruction in driver education for the school division.

ALTERNATIVES TO ANIMAL DISSECTION

The **Surry County** School Board provides one or more alternatives to animal dissection for students enrolled in classes that incorporate dissection exercises. The superintendent is responsible for implementing such alternatives. The superintendent considers the Virginia Board of Education Guidelines Alternatives to Animal Dissection in implementing the alternatives.

Adopted: August 13, 2019

Legal Ref.: Code of Virginia, 1950, as amended, § 22.1-200.01.

Virginia Board of Education Guidelines Alternatives to Animal Dissection
(Attachment to Virginia Department of Education Superintendent's Memo
#161 (Aug. 6, 2004)).

PROGRAMS FOR STUDENTS WITH DISABILITIES

Generally

The Surry County School Board provides a free, appropriate public education for all children and youth with disabilities, ages 2 through 21, inclusive, who are residents of Surry County or who are not residents of Surry County but are residents of Virginia and who are enrolled in a full-time virtual school program provided by the Board. To the maximum extent appropriate, students with disabilities are educated with children who are not disabled.

An Individualized Education Program (IEP) is developed and implemented for each child with a disability served by the Surry County School Board. The program is developed in a meeting of the child's IEP team, which includes the child's teachers, parent, the student (when appropriate), a school division representative qualified to provide or supervise the provision of special education services, an individual who can interpret the instructional implications of evaluation results and other individuals at the discretion of the parent or school division in accordance with State and federal law and regulations. This IEP is reviewed at least annually.

Parents of students with disabilities are provided guidance from the Virginia Department of Education regarding the Applied Studies Diploma and its limitations at a student's annual IEP program meeting corresponding to grades three through 12 when curriculum or statewide assessment decisions are being made that impact the type of diploma for which the student can qualify.

The IEP includes areas specified by state and federal statutes and regulations.

Explanation of Procedural Safeguards

A copy of the procedural safeguards available to the parent of a child with a disability is given to the parent. The procedural safeguards notice includes a full explanation of all the procedural safeguards available.

Child Find

The Surry County School Board maintains an active and continuing child find program designed to identify, locate and evaluate those children residing in the division who are birth to 21 inclusive who are in need of special education and related services

The School Board provides all applicable procedural safeguards including written notice to the parents of the scheduled screening and, if the child fails the screening, the results of the screening, confidentiality and maintenance of the student's scholastic record.

PROGRAMS FOR GIFTED STUDENTS

The Surry County School Board approves a comprehensive plan for the education of gifted students that includes the components identified in Board of Education regulations. The development process for the plan includes opportunities for public review of the school plan. The plan for the education of gifted students is accessible through the division's website and printed copies of the plan are available to citizens who do not have online access.

The school division has uniform procedures for screening, referring, identifying, and serving students in kindergarten through twelfth grade who are gifted in general intellectual or specific academic aptitude.

The school division provides written notification to and seeks written consent from parents and legal guardians to conduct any required assessment to determine a referred student's eligibility for the division's gifted education program, and to provide services for an identified gifted student in the division's gifted education program.

The School Board may establish a local advisory committee composed of parents, school personnel, and other community members appointed by the School Board. The committee will reflect the ethnic and geographical composition of the school division. If established, the committee will annually review the division's plan for the education of gifted students, including revisions, and determine the extent to which the plan for the previous year was implemented. The findings of the annual program effectiveness and the recommendations of the committee will be submitted annually in writing to the superintendent and the School Board.

PARENT AND FAMILY ENGAGEMENT

Generally

The Surry County School Board recognizes that the education of each student is a responsibility shared by the school and the student's family. The Surry County School Board endorses the parent and family engagement goals of Title I (20 U.S.C. § 6318) and encourages the regular participation by parents and family members of all children including those eligible for Title I and English learner programs in all aspects of those programs.

In keeping with these beliefs, the Surry County School Board cultivates and supports active parent and family engagement in student learning. The Surry County School Board:

- provides activities that educate parents regarding the intellectual and developmental needs of their children. These activities promote cooperation between the division and other agencies or school/community groups (such as parent-teacher groups, the Head Start program, the Reading First program, Early Reading First program, Even Start program, and Parents as Teachers program) to furnish learning opportunities and disseminate information regarding parenting skills and child/adolescent development
- implements strategies to involve parents in the educational process, including:
 - keeping families informed of opportunities for involvement and encouraging participation in various programs
 - providing access to educational resources for parents and families to use with their children
 - keeping families informed of the objectives of division educational programs as well as of their child's participation and progress with these programs
- enables families to participate in the education of their children through a variety of roles. For example, family members may
 - provide input into division policies
 - volunteer time within the classroom and school program
- provides professional development opportunities for teachers and staff to enhance their understanding of effective parent involvement strategies
- performs regular evaluations of parent involvement at each school and in the division
- provides access, upon request, to any instructional material used as part of the educational curriculum
- if practicable, provides information in a language understandable to parents

In addition, for parents of students eligible for English learner programs, the School Board informs such parents of how they can be active participants in assisting their children

- to learn English;
- to achieve at high levels in core academic subjects; and
- to meet the same challenging academic content and student academic achievement standards as all children are expected to meet.

Parental Involvement in Title I Plan

The Surry County School Board encourages parents of children eligible to participate in Title I, Part A, programs to participate in the development of the Board's Title I plan. Parents may participate by contacting the Director of Federal Programs for dates and times of events.

Parental Involvement in School Review and Improvement

The Surry County School Division encourages parents of children eligible to participate in Title I, Part A, and English learner programs to participate in the process of school review and, if applicable, the development of support and improvement plans under 20 U.S.C. § 6311(d)(1) and (2). Parents may participate by contacting the Director of Federal Programs for dates and times of events.

Division Responsibilities

The Surry County School Division, and each school which receives Title I, Part A, funds:

- provides assistance to parents of children served by the school or division, as applicable, in understanding topics such as Virginia's challenging academic standards, state and local academic assessments and how to monitor a child's progress and work with educators to improve the achievement of their children
- provides materials and training to help parents work with their children to improve their children's achievement, such as literacy training and using technology (including education about the harms of copyright piracy), as appropriate, to foster parental involvement
- educates teachers, specialized instructional support personnel, principals, and other school leaders, and other staff, with the assistance of parents, in the value and utility of contributions of parents and in how to reach out to, communicate with, and work with parents as equal partners, implement and coordinate parent programs and build ties between parents and the school

- to the extent feasible and appropriate, coordinates and integrates parental involvement programs and activities with other federal, state and local programs, including public preschool and conduct other activities, such as parent resource centers, that encourage and support parents in more fully participating in the education of their children
- ensures that information related to school and parent programs, meetings and other activities is sent to the parents of participating children in a format and, to the extent practicable, in a language the parents can understand
- provides such other reasonable support for parental involvement activities as parents may request

The Surry County School Division, and each school which receives Title I, Part A, funds, **MAY:**

- involve parents in the development of training for teachers, principals, and other educators to improve the effectiveness of such training
- provide necessary literacy training from Title I funds if the division has exhausted all other reasonably available sources of funding for such training
- pay reasonable and necessary expenses associated with local parental involvement activities, including transportation and child care costs, to enable parents to participate in school-related meetings and training sessions
- train parents to enhance the involvement of other parents
- arrange school meetings at a variety of times, or conduct in-home conferences between teachers or other educators who work directly with participating children and parents who are unable to attend such conferences at school in order to maximize parental involvement and participation
- adopt and implement model approaches to improving parental involvement
- establish a divisionwide parent advisory council to provide advice on all matters related to parental involvement in programs supported by Title I
- develop appropriate roles for community-based organizations and businesses in parental involvement activities

School Parent and Family Engagement Policies

Each school served under Title I, Part A, jointly develops with and distributes to parents and family members of participating children a written parent and family engagement policy, agreed on by such parents, that describes the means for carrying out the following:

- convening an annual meeting, at a convenient time, to which all parents of participating children are invited and encouraged to attend, to inform

- parents of their school's participation in Title I, Part A, and to explain the requirements of Title I, Part A, and the rights of parents to be involved
- offering a flexible number of meetings, such as meetings in the morning or evening. Schools may provide, with funds provided under this part, transportation, child care, or home visits, as such services relate to parental involvement
 - involving parents, in an organized, ongoing, and timely way, in the planning, review, and improvement of Title I, Part A, programs including the planning, review, and improvement of the school parent and family engagement policy and the joint development of the school wide program plan under 20 U.S.C. § 6314(b), except that if a school has in place a process for involving parents in the joint planning and design of the school's programs, the school may use that process, if such process includes an adequate representation of parents of participating children
 - providing parents of participating children:
 - timely information about Title I, Part A, programs;
 - a description and explanation of the curriculum in use at the school, the forms of academic assessment used to measure student progress, and the achievement levels of the challenging state academic standards; and
 - if requested by parents, opportunities for regular meetings to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children, and responding to any such suggestions as soon as practicably possible
 - if the school wide program plan under 20 U.S.C. § 6314(b) is not satisfactory to the parents of participating children, submitting any parent comments on the plan when the school makes the plan available to the School Board

Parent and Family Involvement in Allocation of Funding

Parents and family members of children receiving services under Title I, Part A, are involved in the decisions regarding how funds provided under Title I, Part A, are allotted for parental involvement activities.

Policy Review

The School Board conducts, with the meaningful involvement of parents and family members, an annual evaluation of the content and effectiveness of this policy in improving the academic quality of all schools served under Title 1, Part A, including identifying

- barriers to greater participation by parents (with particular attention to parents who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy or are of any racial or ethnic minority background);

- the needs of parents and family members to assist with the learning of their children, including engaging with school personnel and teachers; and
- strategies to support successful school and family interactions.

REMEDIAL AND SUMMER INSTRUCTION PROGRAM

Generally

The School Board develops and implements programs of prevention, intervention, or remediation for students who are educationally at risk, including but not limited to those who fail to achieve a passing score on any Standards of Learning assessment in grades three through eight, or who fail an end-of-course test required for the award of a verified unit of credit. Such programs shall include components that are research based.

Any student who achieves a passing score on one or more, but not all, of the Standards of Learning assessments for the relevant grade level in grades three through eight may be required to attend a remediation program.

Any student who fails to achieve a passing score on all of the Standards of Learning assessments for the relevant grade level in grades three through eight or who fails an end-of-course test required for the award of a verified unit of credit is required to attend a remediation program or to participate in another form of remediation. The superintendent requires such students to take special programs of prevention, intervention, or remediation, which may include attendance in public summer school programs.

Remediation programs include, when applicable, a procedure for early identification of students who are at risk of failing the Standards of Learning assessments in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs may also include summer school for all elementary and middle school grades and for all high school academic courses, as defined by regulations promulgated by the Board of Education, or other forms of remediation. Summer school remediation programs or other forms of remediation are chosen by the superintendent to be appropriate to the academic needs of the student.

Students who are required to attend such summer school programs or to participate in another form of remediation are not charged tuition.

The requirement for remediation may, however, be satisfied by the student's attendance in a program of prevention, intervention or remediation which has been selected by his parent, in consultation with the superintendent or superintendent's designee, and is either (i) conducted by an accredited private school or (ii) a special program which has been determined to be comparable to the required public school remediation program by the superintendent. The costs of such private school remediation program or other special remediation program are borne by the student's parent.

Targeted mathematics remediation and intervention are provided to students in grades six through eight who show computational deficiencies as demonstrated by their

individual performance on any diagnostic test or grade-level Standards of Learning mathematics test that measures non-calculator computational skills.

The School Board annually evaluates and modifies, as appropriate, the remediation plan based on an analysis of the percentage of students meeting their remediation goals and consideration of the pass rate on the Standards of Learning assessments.

Summer School

The courses offered and the quality of instruction in the summer school program shall be comparable to that offered during the regular school term. Students must meet the requirements for SOL testing if appropriate.

Summer school instruction at any level which is provided as part of a state-funded remedial program is designed to improve specific identified student deficiencies.

Compulsory Attendance

When a student is required to participate in a remediation program pursuant to this policy, the superintendent may seek immediate compliance with the compulsory school attendance laws if a reasonable effort to seek the student's attendance, including direct notification of the parents of such student of the attendance requirement and failure of the parents to secure the student's attendance, have failed and the superintendent determines that remediation of the student's poor academic performance, passage of the Standards of Learning Assessment in grades three through eight, or promotion is related directly to the student's attendance in the remediation program.

Advisory Committees To The School Board
Remediation Recovery Program

ENGLISH LEARNERS

Generally

The Surry County School Board provides programs to improve the education of English learners by assisting the children to learn English and meet Virginia's challenging academic content and student academic achievement standards.

The School Board accepts and provides programs for students for whom English is a second language who entered school in Virginia for the first time after reaching their 12th birthday, and who have not reached age 22 on or before August 1 of the school year. No tuition is charged such students, if state funding is provided for such programs.

Assessments

The School Board annually assesses the English proficiency of all English learners.

Notification of Programs for English Learners

The School Board, not later than 30 days after the beginning of the school year, informs a parent or the parents of an English learner identified for participation in, or participating in, a program for English learners, of

- the reasons for the identification of their child as an English learner and in need of placement in a language instruction education program;
- the child's level of English proficiency, how that level was assessed and the status of the child's academic achievement;
- the method of instruction used in the program in which their child is, or will be, participating, and the methods of instruction used in other available programs, including how such programs differ in content, instruction goals, and use of English and a native language in instruction;
- how the program in which their child is, or will be, participating will meet the educational strengths and needs of the child;
- how such program will specifically help their child learn English, and meet age appropriate academic achievement standards for grade promotion and graduation;
- the specific exit requirements for such program, the expected rate of transition from such program into classrooms that are not tailored for English learners, and the expected rate of graduation from high school (including four-year adjusted cohort graduation rates and extended-year adjusted cohort graduation rates for such program);
- in the case of a child with a disability, how such program meets the objectives of the individualized education program of the child; and
- information pertaining to parental rights that includes written guidance
 - detailing the right that parents have to have their child immediately removed from such program upon their request and the options that

- parents have to decline to enroll their child in such program or to choose another program or method of instruction, if available, and
- assisting parents in selecting among various programs and methods of instruction, if more than one program or method is offered by the school division.

For a child who has not been identified as an English learner prior to the beginning of the school year but is identified as an English learner during the school year, the School Board provides the notice detailed above within 2 weeks of the child being placed in the program.

The information described above is provided to parents in an understandable and uniform format and, to the extent practicable, in a language that the parent can understand.

Notification of Availability of Testing Accommodations

Each high school principal or principal's designee notifies each English learner of the availability of testing accommodations available for industry certifications, state licensure examinations, national occupational competency assessments, the Armed Services Vocational Aptitude Battery and the Virginia workplace readiness skills assessment prior to the student's participation in any such certification, examination, assessment, or battery.

OFF-SITE INSTRUCTION AND VIRTUAL COURSES

Homebound Instruction

The School Board maintains a program of homebound instruction for students who are confined at home or in a health care facility for periods that would prevent normal school attendance based upon certification of need by a licensed physician, physician assistant, nurse practitioner, or clinical psychologist.

Credit for the work is awarded when it is done under the supervision of a licensed teacher qualified in the relevant subject areas and employed by the School Board, and there is evidence that the instructional time requirements or alternative means of awarding credit adopted by the School Board have been met.

Virtual Courses

Students may enroll in and receive a standard and verified unit of credit for supervised virtual courses with prior approval of the principal. The superintendent is responsible for developing regulations governing this method of delivery of instruction that include the provisions of 8 VAC 20-131-110 and the administration of required Standards of Learning tests prescribed by 8 VAC 20-131-30. For courses offered for possible high school credit, standard units of credit are awarded for successful completion of such courses when the course is equivalent to that offered in the regular school program and the work is done under the supervision of a licensed teacher qualified in the relevant subject areas. A verified unit of credit may be earned when the student has successfully completed the requirements specified in 8 VAC 20-131-110.

Adopted: July 10, 2018

ONLINE COURSES AND VIRTUAL SCHOOL PROGRAMS

The Surry County School Board may enter into contracts, consistent with the criteria approved by the Board of Education, with approved private or nonprofit organizations to provide multidivision online courses and virtual school programs. Such contracts are exempt from the Virginia Public Procurement Act.

Information regarding online courses and programs that are available through the school division is posted on the division's website. The information includes the types of online courses and programs available to students through the division, when the division will pay course fees and other costs for nonresident students, and the granting of high school credit.

Any student enrolled in any online course or virtual program offered by the school division must be enrolled in a public school in Virginia as provided in Va. Code § 22.1-3.1. The student's parent or guardian must give written permission prior to the enrollment of the student in any full-time virtual program offered by the school division.

A student who resides in Surry County school division is not charged tuition for enrolling in any online course or virtual program offered by the school division. However, tuition may be charged to students, except children with disabilities who are enrolled in the division's full-time virtual school program, who do not reside within the boundaries of the school division.

Teachers who deliver instruction to students through online courses or virtual school programs must be licensed by the Board of Education and are subject to the requirements of Policy GCDA Effect of Criminal Conviction or Founded Complaint of Child Abuse or Neglect.

The administrator of a virtual school program must hold an advanced degree from a regionally accredited institution of higher education with educational and work experience in administering educational programs.

For purposes of this policy, the following definitions apply.

"Multidivision online provider" means (i) a private or nonprofit organization that enters into a contract with a local school board to provide online courses or programs through that school board to students who reside in Virginia both within and outside the geographical boundaries of that school division; (ii) a private or nonprofit organization that enters into contracts with multiple local school boards to provide online courses or programs to students in kindergarten through grade 12 through those school boards; or (iii) a local school board that provides online courses or programs to students who reside in Virginia but outside the geographical boundaries of that school division. However, "multidivision online provider" shall not include (a) a local school board's online learning program in which fewer than 10 percent of the students enrolled reside outside the geographical boundaries of that school division; (b) multiple local school boards that establish joint online courses or programs in which fewer than 10 percent of the students enrolled reside outside the geographical boundaries of those school

divisions; (c) local school boards that provide online learning courses or programs for their students through an arrangement with a public or private institution of higher education; or (d) local school boards providing online courses or programs through a private or nonprofit organization that has been approved as a multidivision online provider.

"Online course" means a course or grade-level subject instruction that (i) is delivered by a multidivision online provider primarily electronically using the Internet or other computer-based methods and (ii) is taught by a teacher primarily from a remote location, with student access to the teacher given synchronously, asynchronously, or both.

"Virtual school program" means a series of online courses with instructional content that (i) is delivered by a multidivision online provider primarily electronically using the Internet or other computer-based methods; (ii) is taught by a teacher primarily from a remote location, with student access to the teacher given synchronously, asynchronously, or both; (iii) is delivered as a part-time or full-time program; and (iv) has an online component with online lessons and tools for student and data management.

ALTERNATIVE SCHOOL PROGRAMS

The Surry County School Board establishes alternative educational programs within existing schools or at separate sites as needed. No person of school age meeting the residency requirements of Va. Code § 22.1-3 is charged tuition for enrollment in an alternative program offered as a regional or divisionwide initiative by the School Board.

Adopted: April 13, 2021

Legal Refs.: Code of Virginia, 1950, as amended, §§ 22.1-5, 22.1-253.13:1.

ADVANCED PLACEMENT CLASSES AND SPECIAL PROGRAMS

Students and their parents are notified of the availability of dual enrollment and advanced placement classes; career and technical education programs, including internships, externships, apprenticeships, credentialing programs, certification programs, licensure programs, and other work-based learning experiences; the International Baccalaureate program and Academic Year Governor's School Programs; the qualifications for enrolling in such classes, programs, and experiences; and the availability of financial assistance to low-income and needy students to take the advanced placement and International Baccalaureate examinations. Students and their parents are also notified of the program with a community college to enable students to complete an associate's degree or a one-year Uniform Certificate of General Studies concurrent with a high school diploma. The superintendent promulgates regulations to implement this policy, which ensure the provision of timely and adequate notice to students and their parents.

Adopted: July 10, 2018

LEB Advanced/Alternative Courses for Credit

STUDENT ORGANIZATIONS

Generally

Public school facilities are devoted primarily to instructional programs and school-sponsored activities. Curriculum-related student organizations are an extension of the regular school program. Their function is to enhance the participants' educational experience and supplement course materials. The activities of these organizations should bear a clear relationship to the regular curriculum.

Secondary school students may organize and conduct meetings of noncurriculum-related groups. Any secondary school which permits one or more noncurriculum-related student group to meet on school premises during noninstructional time provides equal access to any students who wish to conduct a meeting without discrimination on the basis of the religious, political, philosophical, or other content of the speech at such meetings.

Noncurriculum-related student groups may use school facilities provided that

- the group's meetings are voluntary and student-initiated;
- the group is not sponsored by the school, the government, or any government agent or employee;
- agents or employees of the school or government are present at religious meetings only in a nonparticipatory capacity;
- meetings do not materially and substantially interfere with the orderly conduct of educational activities at the school; and
- nonschool persons do not direct, conduct, control, or regularly attend activities of the group.

Meetings of Student Organizations

The principal of each school determines the times and places which are available for the meetings of student organizations. The principal also develops procedures for scheduling meetings of student organizations. Meeting times are limited to non-instructional time.

Faculty Involvement

Curriculum-related student organizations must be sponsored and supervised by one or more school faculty members and approved by the principal. Faculty sponsors will participate in the supervision and direction of all activities of the organization and will attend all meetings and activities.

Noncurriculum-related student organizations do not have a faculty sponsor. However, a member of the school's staff attends every meeting or activity of such organizations in a nonparticipatory capacity for purposes of general supervision. The organization is responsible for assuring the presence of a staff member for its meetings.

No school employee is compelled to attend a meeting of any student organization if the content of such meeting is contrary to the beliefs of that school employee.

Compliance with Law and Policy

Student organizations shall not engage in any activity which is contrary to law, division policy, or school rules; which disrupts or clearly threatens to disrupt the orderly operation of the school; or which would adversely affect the health, safety or welfare of any students or staff members. Failure to comply with these provisions is grounds for disciplinary action.

ADULT EDUCATION

Adult education programs are offered to those residents of the school division over the age of compulsory school attendance who are not enrolled in the regular public school program, including adult basic education, credit programs, cultural adult education, external diploma programs, general adult education, and high school equivalency programs, and who are functioning below the high school completion level. The School Board seeks to ensure that every individual participating in such a program has the opportunity to earn a high school diploma or pass a high school equivalency examination approved by the Board of Education. Such programs may be conducted solely by the School Board or through a collaborative arrangement between the School Board and other school boards or agencies. Credits and diplomas are awarded in accordance with regulations established by the Board of Education. Additional educational programs for individuals over the age of compulsory attendance also may be offered. Tuition and fees are established by the School Board.

GROUPING FOR INSTRUCTION

The Surry County School Board recognizes the different educational needs of students and endorses the use of flexible assignment of students for instruction.

The grouping of students within individual schools for instructional purposes will be designed so each student will receive the maximum instructional benefit and will be based on

1. the best interests of the student,
2. the educational level, or achievement level, of the student,
3. the availability of space,
4. the best educational climate for learning,
5. the student's best chance for success,
6. Standards of Learning test scores, where available, or other standardized test scores, and
7. the creation of groups that may be taught effectively.

Grouping will remain flexible in order to take advantage of the best educational research currently available. Groups will be created, modified, or disbanded to be responsive to student needs.

Adopted: September 11, 2012

CLASS SIZE

The Surry County School Board assigns licensed instructional personnel in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions, excluding special education teachers, principals, assistant principals, counselors and librarians, that are not greater than the following ratios:

- 24 to one in kindergarten with no class being larger than 29 students; if the average daily membership in any kindergarten class exceeds 24 pupils, a full-time teacher's aide will be assigned to the class;
- 24 to one in grades one, two and three with no class being larger than 30 students;
- 25 to one in grades four through six with no class being larger than 35 students; and
- 24 to one in English classes in grades six through 12.

After September 30 of any school year, anytime the number of students in a class exceeds the class size limit established by this policy, the school division will notify the parent of each student in such class of such fact no later than 10 days after the date on which the class exceeded the class size limit. The notification shall state the reason that the class size exceeds the class size limit and describe the measures that the school division will take to reduce the class size to comply with this policy.

In addition, the Surry County School Board assigns instructional personnel in a manner that produces schoolwide ratios of students in average daily memberships to full-time equivalent teaching positions of 21 to one in middle schools and high schools.

When determining the assignment of instructional and other licensed personnel for purposes of this policy, full-time students of approved virtual school programs are not included.

Adopted: July 12, 2016

INSTRUCTIONAL MATERIALS

Generally

The Surry County School Board is responsible for the selection and use of instructional materials.

The superintendent or superintendent's designee creates and updates, as necessary, guidelines and procedures for the selection of instructional materials. The guidelines and procedures are designed to ensure that appropriate instructional materials are selected and provide an opportunity for the professional staff and community to participate and be informed on the selection and use of instructional materials.

Parents may inspect, on request, any instructional material used as part of their student's curriculum.

Surry County School Board ensures parental notification of any instructional material that includes sexually explicit content.

Surry County School Board provides nonexplicit instructional material and related academic activities to any student whose parent requests that the student be provided with such instructional material and/or activities.

The superintendent is responsible for creating, implementing, and periodically updating procedures for implementing this policy. Those procedures will include

- a process for identifying instructional materials, including supplementary materials, with sexually explicit content;
- a process for identifying, prior to the start of each school year, any instructional material that includes sexually explicit content that may be used during the upcoming school year;
- a process by which principals will provide written notice to parents at least 30 days prior to the use of any instructional materials with sexually explicit content, that (a) specifically identifies the instructional materials with sexually explicit content, (b) informs parents of their right to review such instructional materials, and (c) informs parents of their right to have their child use, upon request, in a non-punitive manner, alternative instructional materials that do not include sexually explicit content;
- a process by which parents may change their decision with respect to the use of alternative instructional materials by providing written notice;
- a process for maintaining a current list of instructional materials with sexually explicit content by grade and subject matter on the division's website; and
- a process for online access for parental review of instructional materials that include sexually explicit content unless such review is not technically feasible or is prohibited by copyright protection. The process shall include provisions

requiring schools to have instructional materials including sexually explicit content available for review by parents.

Definitions

“Instructional material” and “instructional materials” mean any content used by one or more students for an educational purpose in connection with BLANK Public Schools regardless of (a) its format, whether printed, representational, audiovisual, electronic, or digital (such as materials, social media content, and software applications accessible through the internet), or (b) the time, place and manner in which the content is used. Library materials are considered instructional materials when used (a) for completion of an assignment from Surry County Public Schools, or (b) as part of an academic or extracurricular education program conducted by Surry County Public Schools. They include any division, school, and/or classroom purchased or created assessments. They do not include standardized national or state assessments, such as ACT, SAT, NAEP (National Assessment of Educational Progress), AP (Advanced Placement) or SOL (Standards of Learning) exams.

“Nudity” means a state of undress so as to expose the human male or female genitals, pubic area or buttocks with less than a full opaque covering, or the showing of the female breast with less than a fully opaque covering of any portion thereof below the top of the nipple, or the depiction of covered or uncovered male genitals in a discernibly turgid state.

“Parent” or “parents” means any parent, guardian, legal custodian, or other person having control or charge of a child.

“Sadomasochistic abuse” means actual or explicitly simulated flagellation or torture by or upon a person who is nude or clad in undergarments, a mask or bizarre costume, or the condition of being fettered, bound or otherwise physically restrained on the part of one so clothed.

“Sexually explicit content” means (a) any description of or (b) any picture, photograph, drawing, motion picture film, digital image or similar visual representation depicting sexual bestiality, a lewd exhibition of nudity, as defined in this policy, sexual excitement, sexual conduct or sadomasochistic abuse, as defined in this policy, coprophilia, urophilia, or fetishism. Instructional materials shall not be designated as sexually explicit based solely on the sexual orientation of the characters therein.

TEXTBOOK SELECTION, ADOPTION AND PURCHASE

Selection of Textbooks

The School Board may adopt textbooks, including print or electronic media, for student use that serve as the primary curriculum basis for a grade-level subject or course from the list of textbooks approved by the Board of Education. The School Board may also adopt books which are not on the state-adopted list in accordance with the Board of Education regulations.

In approving textbooks, the School Board

- appoints evaluation committees to review and evaluate textbooks,
- gives notice to parents that textbooks under consideration will be listed on the division's website and made available at designated locations for review by any interested citizens,
- creates opportunities for persons reviewing such textbooks to present their comments and observations to the School Board,
- creates procedures to ensure appropriate consideration of citizen comments and observations and
- establishes and makes known selection criteria.

Textbooks Approved by the Board of Education

The Surry County School Board may either enter into written term contracts or issue purchase orders with publishers of textbooks approved by the Board of Education. Such written contracts or purchase orders are exempt from the Virginia Public Procurement Act (Va. Code § 2.2-4300 et seq.) The contract price shall not exceed the lowest wholesale price at which the textbook or textbooks involved in the contract are currently bid under contract anywhere in the United States. If, subsequent to the date of any contract entered into by the School Board, the prices of textbooks named in the contract are reduced or the terms of the contract are made more favorable to purchase anywhere in the United States or a special or other edition of any book named in the contract is sold outside of Virginia at a lower price than contracted in Virginia, the publisher shall grant the same reduction or terms to the School Board and give the School Board the option of using such special or other edition adapted for use in Virginia and at the lowest price at which such special edition is sold elsewhere and the contract shall so state.

Contracts and purchase orders with publishers of textbooks approved by the Board of Education shall require the publisher to furnish an electronic file of the textbook in the National Instructional Materials Accessibility Standards (NIMAS) format that will then be deposited in the National Instructional Materials Access Center (NIMAC) from which accessible versions of the particular textbook may be produced for students with print disabilities, as defined in 20 U.S.C. § 1474. Publishers shall deliver the NIMAS file of the textbook on or before the date of delivery of the regular text version.

Contracts and purchase orders with publishers of textbooks approved by the Board of Education for use in grades 6-12 shall allow for the purchase of printed textbooks, printed textbooks with electronic files, or electronic textbooks separate and apart from printed versions of the same textbook. The School Board may purchase an assortment of textbooks in any of the three forms listed above.

The School Board shall order directly from the respective publishers the textbooks needed to supply the public schools in the school division. The publishers shall ship the textbooks to the School Board. The purchase price of such textbooks shall be paid directly to the publishers by the School Board.

Locally-Approved Textbooks

In approving textbooks that have not been approved by the Board of Education, the School Board will also include a correlation of the content to the Virginia Standards of Learning in the content area and an analysis of strengths and weaknesses of the textbook in terms of instructional planning and support when the textbooks pertain to Virginia Standards of Learning subjects.

The publishers of such textbooks shall

- provide the School Board with certification that the content of the textbook is accurate and
- sign an agreement with the School Board to correct all factual and editing errors found at its own expense.

The purchase of textbooks other than those approved by the Board of Education is not exempt from the Virginia Public Procurement Act.

SUPPLEMENTARY MATERIALS SELECTION AND ADOPTION

Materials used by students under the guidance of teachers to extend, expand, and supplement basal materials constitute an integral part of the instructional program. Supplemental materials are those items which are used to assist the teaching and learning process and include such items as magazines, newspapers, charts, pictures, certain workbooks, kits, videos, film strips, and games. Materials selected for supplemental use relate directly to the established objectives of the course or content area in which they are used.

The School Board delegates the responsibility for the selection and use of supplemental materials to the individual schools. Teachers must carefully review materials prior to use and exercise a high degree of professional judgment in their selection and use of supplemental materials to ensure that the use of such materials serves to both support and complement the basic educational objectives within the specific subject areas and classrooms. Teachers must follow the superintendent's procedures required by Policy IIA Instructional Materials when selecting supplemental materials.

SCHOOL LIBRARIES/MEDIA CENTERS

Each school shall maintain an organized library media center as the resource center of the school and provide a unified program of media services and activities for students and teachers before, during and after school. The library media center shall contain hard copy, electronic technological resources, materials, and equipment that are sufficient to meet research, inquiry, and reading requirements of the instructional program and general student interest.

Each school provides a variety of materials, resources and equipment to support the instructional program.

ACCEPTABLE COMPUTER SYSTEM USE

The School Board provides a computer system, including the internet, to promote educational excellence by facilitating resource sharing, innovation and communication. The term computer system includes, but is not limited to, hardware, software, data, communication lines and devices, terminals, display devices, printers, CD, DVD and other media devices, tape or flash drives, storage devices, servers, mainframe and personal computers, tablets, laptops, telephones, cameras, projectors, multimedia devices, workstations, the internet and other electronic services and internal or external networks. This includes any device that may be connected to or used to connect to the school division's network or electronically stored division material.

All use of the division's computer system must be (1) in support of education and/or research, or (2) for legitimate school business. Use of the computer system is a privilege, not a right. Inappropriate use may result in cancellation of those privileges, disciplinary action, and/or legal action. Any communication or material generated using the computer system, including electronic mail, social media posts, instant or text messages, tweets, and other files, including communications and materials deleted from a user's account, may be monitored, read, and/or archived by division staff.

This policy applies to all users of the division's computer system. By using or accessing the computer system, the user agrees to abide by this policy and the Technology Use Guidelines established by the superintendent.

The superintendent is responsible for establishing Technology Use Guidelines, containing the appropriate uses, ethics and protocols for use of the computer system. The superintendent is also responsible for reviewing and updating, as necessary, the Guidelines at least every two years. It is the user's responsibility to know and follow this policy and the Technology Use Guidelines.

The Guidelines include:

- (1) a prohibition against use by division employees and students of the division's computer equipment and communications services for sending, receiving, viewing or downloading illegal material via the internet;
- (2) provisions, including the selection and operation of a technology protection measure for the division's computers having internet access to filter or block Internet access through such computers, that seek to prevent access to:
 - (a) child pornography as set out in Va. Code § 18.2-374.1:1 or as defined in 18 U.S.C. § 2256;
 - (b) obscenity as defined by Va. Code § 18.2-372 or 18 U.S.C. § 1460; and

- (c) material that the school division deems to be harmful to juveniles as defined in Va. Code § 18.2-390, material that is harmful to minors as defined in 47 U.S.C. § 254(h)(7)(G), and material that is otherwise inappropriate for minors;
- (3) provisions establishing that the technology protection measure is enforced during any use of the division's computers;
 - (4) provisions establishing that all usage of the computer system may be monitored;
 - (5) provisions designed to educate students and employees about appropriate online behavior, including interacting with students and other individuals on social networking websites, blogs, in chat rooms, and cyberbullying awareness and response;
 - (6) provisions designed to prevent unauthorized online access by minors, including "hacking" and other unlawful online activities.;
 - (7) provisions requiring every user to protect the security of information necessary to access the computer system, such as usernames and passwords, and prohibiting the sharing of passwords;
 - (8) provisions prohibiting the unauthorized disclosure, use, and dissemination of photographs and/or personal information of or regarding minors; and
 - (9) a component of internet safety for students that is integrated in the division's instructional program.

Use of the school division's computer system shall be consistent with the educational or instructional mission or administrative function of the division as well as the varied instructional needs, learning styles, abilities and developmental levels of students.

The division's computer system is not a public forum.

Users of the division's computer system have no expectation of privacy for use of the division's resources or electronic devices including non-division owned devices while connected to division networks or computer resources.

Software and/or services may not be installed or downloaded on the division's computer system without the prior approval of the superintendent or superintendent's designee.

The failure of any user to follow the terms of this policy or the Technology Use Guidelines may result in loss of computer system privileges, disciplinary action, and/or appropriate legal action.

The School Board is not responsible for any information that may be lost, damaged or unavailable when using the computer system or for any information retrieved via the Internet. Furthermore, the School Board is not responsible for any unauthorized charges or fees resulting from access to the computer system.

The School Board reviews and amends, if necessary, this policy every two years.

ACCEPTABLE COMPUTER SYSTEM USE AGREEMENT

Each employee must sign this Agreement as a condition for using the School Division’s computer/technology system. Each student and his or her parent/guardian must sign this Agreement before being permitted to use the School Division’s computer/technology system. Read this Agreement carefully before signing.

Prior to signing this Agreement, read Policy GAB/IIBEA and Regulation GAB-R/IIBEA-R, Acceptable Computer/Technology System Use. If you have any questions about this policy or regulation, contact your supervisor or your student’s principal.

I understand and agree to abide by the School Division’s Acceptable Computer/Technology System Use Policy and Regulation. I understand that the School Division may access, monitor, and archive my use of the computer/technology system, including my use of the internet, e-mail and downloaded material, without prior notice to me. I further understand that should I violate the Acceptable Use Policy or Regulation, my computer/technology system privileges may be revoked and disciplinary action and/or legal action may be taken against me.

Student/Employee Signature _____ Date _____

Student/Employee Name _____

(Please Print)

I have read this Agreement and Policy GAB/IIBEA and Regulation GAB-R/IIBEA-R. I understand that access to the computer/technology system is intended for educational purposes and the **Surry County** School Division has taken precautions to eliminate inappropriate material. I also recognize, however, that it is impossible for the School Division to restrict access to all inappropriate material and I will not hold the School Division responsible for information acquired on the computer/technology system. I have discussed the terms of this agreement, policy, and regulation with my student.

I grant permission for my student to use the computer/technology system in accordance with Surry County School Division’s policies and regulations and for the School Division to issue an account for my student.

Parent/Guardian Signature _____ Date _____

Parent/Guardian Name _____

(Please Print)

TECHNOLOGY USE GUIDELINES

All use of the **Surry County** School Division's computer/technology system shall be consistent with the school board's goal of promoting educational excellence by facilitating resource sharing, innovation and communication. The term computer/technology system includes, but is not limited to, hardware, software, data, communication lines and devices, terminals, display devices, printers, CD, DVD and other media devices, tape or flash drives, storage devices, servers, mainframe and personal computers, tablets, laptops, telephones, cameras, projectors, multimedia devices, workstations, the internet and other electronic services and any other internal or external network. This includes any device that may be connected to or used to connect to the school division's network or electronically stored division material.

Computer/Technology System Use-Terms and Conditions:

1. **Acceptable Use.** Access to the division's computer/technology system shall be (1) for the purposes of education or research and be consistent with the educational objectives of the division or (2) for legitimate school business.
2. **Privilege.** The use of the division's computer/technology system is a privilege, not a right.
3. **Unacceptable Use.** Each user is responsible for his or her actions on the computer/technology system. Prohibited conduct includes but is not limited to:
 - using the network for any illegal or unauthorized activity, including violation of copyright or contracts, or transmitting any material in violation of any federal, state, or local law.
 - sending, receiving, viewing or downloading illegal material via the computer/technology system.
 - unauthorized downloading of software.
 - using the computer/technology system for private financial or commercial purposes.
 - wastefully using resources, such as file space.
 - gaining unauthorized access to resources or entities.
 - posting material created by another without his or her consent.
 - submitting, posting, publishing, or displaying any obscene, profane, threatening, illegal, or other inappropriate material.
 - using the computer/technology system while access privileges are suspended or revoked.
 - vandalizing the computer/technology system, including destroying data by creating or spreading viruses or by other means.
 - intimidating, harassing, bullying, or coercing others.
 - threatening illegal or immoral acts.
4. **Network Etiquette.** Each user is expected to abide by generally accepted rules of etiquette, including the following:

- be polite.
 - users shall not forge, intercept or interfere with electronic mail messages.
 - use appropriate language. The use of obscene, lewd, profane, lascivious, threatening or disrespectful language is prohibited.
 - users shall not post personal information other than directory information as defined in Policy JO Student Records about themselves or others.
 - users shall respect the computer/technology system's resource limits.
 - users shall not post chain letters or download large files.
 - users shall not use the computer/technology system to disrupt others.
 - users shall not modify or delete data owned by others.
5. **Liability.** The school board makes no warranties for the computer/technology system it provides. The school board shall not be responsible for any damages to the user from use of the computer/technology system, including loss of data, non-delivery or missed delivery of information, or service interruptions. The school division is not responsible for the accuracy or quality of information obtained through the computer/technology system. The user agrees to indemnify the school board for any losses, costs, or damages incurred by the school board relating to or arising out of any violation of these procedures.
6. **Security.** Computer/technology system security is a high priority for the school division. If any user identifies a security problem, the user shall notify the building principal or system administrator immediately. All users shall keep their passwords confidential and shall follow computer virus protection procedures.
7. **Vandalism.** Intentional destruction of or interference with any part of the computer/technology system through creating or downloading computer viruses or by any other means is prohibited.
8. **Charges.** The school division assumes no responsibility for any unauthorized charges or fees as a result of using the computer/technology system, including telephone, data, or long-distance charges.
9. **Electronic Mail.** The school division's electronic mail system is owned and controlled by the school division. The school division may provide electronic mail to aid students and staff in fulfilling their duties and as an education tool. Electronic mail is not private. Students' electronic mail will be monitored. The electronic mail of staff may be monitored and accessed by the school division. All electronic mail may be archived. Unauthorized access to an electronic mail account by any student or employee is prohibited. Users may be held responsible and personally liable for the content of any electronic message they create or that is created under their account or password. Downloading any file attached to an electronic message is prohibited unless the user is certain of that message's authenticity and the nature of the file.

10. **Enforcement.** Software will be installed on the division’s computers/technology devices having internet access to filter or block internet access through such computers/technology devices to child pornography and obscenity. The online activities of users may also be monitored manually. **Any violation of these regulations shall result in loss of computer/technology system privileges and may also result in appropriate disciplinary action, as determined by school board policy, or legal action.**

FIELD TRIPS

Field trips are off-campus instructional activities. Field trips can provide excellent educational experiences for students by enriching the curriculum and by making classroom learning experiences more meaningful. To be educationally beneficial, a field trip requires thoughtful selection, careful advance preparation, and opportunities to assimilate the experience during and after the trip. Teachers plan advance activities that prepare students for the trip and follow-up activities that assist students in summarizing, applying, and evaluating information learned on the trip.

The following factors should be considered in proposing and approving field trips:

- The value of the trip to the particular class
- The relationship of the field trip to a particular aspect of the curriculum
- The distance travelled
- The time away from the regular instructional program
- The availability of transportation

No student is denied the opportunity to participate in a field trip because of a lack of funds.

Trips are approved by the superintendent or superintendent's designee pursuant to regulations developed by the superintendent. Approval must be obtained before commitments are made to students, parents, or commercial establishments. The superintendent makes an annual report to the School Board on field trips taken.

Trips for activities governed by the Virginia High School League do not require approval on a trip-by-trip basis. Parental permission for such trips may be obtained for the entire athletic season or school year.

The Surry County School Board does not endorse or accept responsibility for any privately sponsored trips for students or any student trips which are not part of the instructional program. Employees are not permitted to solicit students for such trips. Employees who are involved with such trips must emphasize to any interested student/parent that such trips are strictly private enterprises.

COMMUNITY RESOURCE PERSONS/SCHOOL VOLUNTEERS

The Surry County School Board supports and encourages the active participation of parents and members of the community in providing and extending educational opportunities for children. The involvement of parents, volunteers and others in the community who can serve as a resource to schools is a fundamentally important component of successful school programs. The administration of each school directs the activities of parents, volunteers and other community resources at the building level.

GUIDANCE AND COUNSELING PROGRAM

School Guidance and Counseling Services

Each school provides the following guidance and counseling services to all students:

- Academic guidance which assists students and their parents to acquire knowledge of the curricula choices available to students, to plan a program of studies, to arrange and interpret academic testing and to seek post-secondary academic opportunities.
- Career guidance which helps students to acquire information and plan action about work, jobs, apprenticeships and post-secondary educational and career opportunities.
- Personal/social counseling which assists a student to develop an understanding of themselves, the rights and needs of others, how to resolve conflict and to define individual goals, reflecting their interests, abilities and aptitudes. Information and records of personal/social counseling will be kept confidential and separate from a student's educational records and not disclosed to third parties without prior parental consent or as otherwise provided by law. Parents may elect, by notifying their child's school in writing, to have their child not participate in personal/social counseling.

No student is required to participate in any counseling program to which the student's parents object.

The guidance and counseling program does not include the use of counseling techniques which are beyond the scope of the professional certification or training of counselors, including hypnosis, or other psychotherapeutic techniques that are normally employed in medical or clinical settings and focus on mental illness or psychopathology.

Parents are notified annually about the counseling programs which are available to their children. The notification will include the purpose and general description of the programs, information regarding ways parents may review materials to be used in guidance and counseling programs at their child's school and information about the procedures by which parents may limit their child's participation in such programs.

Employment Counseling and Placement Services

The School Board provides to secondary students employment counseling and placement services to furnish information relating to the employment opportunities available to students graduating from or leaving the schools in the school division. Such information includes all types of employment opportunities, including, but not limited to, apprenticeships, the military, career education schools and the teaching profession. In providing such services, the School Board consults and cooperates with the Virginia Employment Commission, the Department of Labor and Industry, local business and labor organizations and career schools.

If the School Board provides access to one or more of its high schools and contact with such high school's student body or other contact with its high school students during a school or school division-sponsored activity to persons or groups for occupational, professional or educational recruitment, it provides equal access on the same basis to official recruiting representatives of the military forces of the Commonwealth and the United States.

COLLEGE AND CAREER READINESS

Each middle and secondary school provides for the early identification and enrollment of students in a program with a range of educational and academic experiences related to college and career readiness in and outside the classroom, including an emphasis on experiences that will motivate disadvantaged and minority students to prepare for a career or postsecondary education.

Each elementary, middle, and secondary school provides for the identification by all students of personal interests and abilities to support planning for postsecondary opportunities and career preparation. Such support includes provision of information concerning exploration of career cluster areas in elementary schools, and course information and planning for college preparation programs, opportunities for educational and academic experiences in and outside the classroom, including internships and work-based learning, and the multiple pathways to college and career readiness in middle and high school.

Beginning in the elementary school years, students explore the different occupations associated with career clusters and select an area or areas of interest. Students begin the development of an academic and career plan portfolio (ACPP) in elementary grades to include information about interests, values such as dependability and responsibility, and skills supporting decisions about their future interests and goals. The information contained in the ACPP serves as the foundation for creating the Academic and Career Plan (ACP) in grade 7.

In middle school, students complete a locally selected career interest inventory and select a career pathway. To support development of the ACP, students complete at least one course in career investigation selected from the career and technical education state-approved list, or a school division-provided alternative means of delivering the career investigation course content, provided that the alternative is equivalent in content and academic rigor.

The School Board may require such courses in career investigation at the high school level as it deems appropriate, subject to approval by the Board of Education. The School Board may require such courses in career investigation at the elementary school level as it deems appropriate.

All schools continue development of a personal ACP with each seventh-grade student with completion by the end of the fall semester of the student's eighth-grade year. The components of the ACP include the student's program of study for high school graduation and a postsecondary career pathway based on the student's academic and career interests. In high school, a career-related learning experience is chosen by the student and documented in the ACP.

The ACP is developed in accordance with guidelines established by the Board of Education and signed by the student, student's parent or guardian, and school official or

officials designated by the principal. The ACP is included in the student's record and is reviewed and updated annually. Lists, as compiled annually by the Department of Education and provided to the School Board, of 1) the top 100 professions in Virginia by median pay and the education, training and skills required for each such profession and 2) the top 10 degree programs at institutions of higher education in Virginia by median pay of program graduates are included as part of each student's ACP.

Beginning in the middle school years, students are counseled on opportunities for beginning postsecondary education and opportunities for obtaining industry certifications, occupational competency credentials, or professional licenses in a career and technical education field prior to high school graduation as described in Policy LEB Advanced/Alternative Courses for Credit. Such opportunities include access to at least three Advanced Placement (AP), International Baccalaureate (IB), or Cambridge courses or three college-level courses for degree credit pursuant to 8 VAC 20-131-100. Students taking advantage of such opportunities are not denied participation in school activities for which they are otherwise eligible. Wherever possible, students are encouraged and afforded opportunities to take college courses simultaneously for high school graduation and college degree credit (dual enrollment), under the following conditions:

- a. Written approval of the high school principal prior to participation in dual enrollment must be obtained;
- b. The college must accept the student for admission to the course or courses; and
- c. The course or courses must be given by the college for degree credits (no remedial courses will be accepted).

Information that assists high school students in making informed decisions about their futures after graduating from high school and ensures that such students are aware of the costs and benefits of different educational and certificate programs, as collected and compiled by the Virginia Department of Education in consultation with the State Council of Higher Education for Virginia, is readily available to each high school student. The information is distributed to each high school student who expresses an interest in attending an institution of higher education or completing a training program.

PARENTAL ASSISTANCE WITH INSTRUCTION

The Surry County School Board encourages parents to provide instructional assistance to their children in the home. The school division may offer a voluntary training program to the parents of children in kindergarten through third grade to assist them in developing the skills necessary to provide effective instructional assistance to their children.

Adopted: July 8, 2014

 IKB Homework

HOMEWORK

Homework provides an essential communication link between the school and the home. One measure of a program or course is the quality of the work done at home by the student. A strong home-school partnership, with many lasting benefits for the individual student and the student's family, can be greatly enhanced by a sound program of homework. In addition, homework should be an important tool in developing independent thought, self-direction and self-discipline. It assists the student in developing good work habits and in the wise use of time.

Guidelines for homework include:

- Homework should be assigned after introduction and thorough explanation of the skills necessary to successfully complete the assignment.
- Homework should be assigned in such a manner that it will be clearly understood by all students.
- Homework should serve a valid purpose and be closely related to classroom activities.
- A student's access to resource materials should be considered when making assignments.
- Homework should be evaluated promptly and returned to the student. Appropriate rewards should be given to those students who successfully complete assigned work. Effort and competency should be recognized and rewarded.
- Teachers should seek to determine the cause if a student regularly fails to complete assigned work. Teachers should not avoid giving homework because they believe students will not do the work.
- Excessive homework, like the absence of homework, should be avoided.
- Homework should not be used for disciplinary purposes
- Teachers and administrators should take appropriate steps to communicate with parents regarding the division's homework policy and to solicit their support.

ACCELERATION

The curriculum and schedule of elementary, middle and high schools provides flexibility in placing certain students in programs or subjects normally considered above their grade level. Scheduling eighth grade students into subjects above the normal grade level is done with counseling based on evidence of ability, past scholastic achievement and cooperation of the individual student and his parents or guardian.

When students below the ninth grade successfully complete courses offered for credit in grades 9 through 12, credit is counted toward meeting the standard units required for graduation provided the courses are equivalent in content and academic rigor as those courses offered at the secondary level. To earn a verified unit of credit for these courses, students below ninth grade level must meet the same requirements applicable to other students.

In any high school credit-bearing course taken in middle school, a parent may request that the grade be omitted from the student's transcript and the student not earn high school credit for the course. Such request shall be made in the format and by the deadline set forth in regulations developed by the superintendent.

THE VIRGINIA ASSESSMENT PROGRAM AND GRADUATION REQUIREMENTS

Generally

The Board of Education has established educational objectives known as the Standards of Learning (SOLs), which form the core of Virginia's educational program, and other education objectives, which together are designed to ensure the development of the skills that are necessary for success in school and in preparation for life in the years beyond.

The Surry County School Board has developed and implemented a program of instruction that is aligned to the Standards of Learning and that meets or exceeds the requirements of the Board of Education. It awards diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who meet the requirements prescribed by the Board of Education and meet such other requirements as are prescribed by the school board and approved by the Board of Education.

Surry County School Board awards diplomas and certificates in accordance with state laws and regulations. The requirements for a student to earn a diploma and graduate from high school are those in effect when the student enters ninth grade for the first time.

Virginia Assessment Program

In kindergarten through eighth grade, where the administration of Virginia Assessment Program tests are required by the Board of Education, each student is expected to take the tests following instruction. Students who are accelerated take the test aligned with the highest grade level, following instruction in the content. No student takes more than one test in any content area in each year, except in the case of expedited retakes as provided for in 8 VAC 20-131-30. Schools use the test results in kindergarten through eighth grade as part of a set of multiple criteria for determining the promotion or retention of students.

Each student in middle and secondary school takes all applicable end-of-course SOL tests following course instruction. The superintendent certifies to the Department of Education that the division's policy for dropping courses ensures that students' course schedules are not changed to avoid end-of-course SOL tests. Students who achieve a passing score on an end-of-course SOL test will be awarded a verified unit of credit in that course in accordance with 8 VAC 20-131-110. Students may earn verified credits in any courses for which end-of-course SOL tests are available. Students are not required to take an end-of-course SOL test in an academic subject after they have earned the number of verified credits required for that academic content area for graduation unless such test is necessary in order for the school to meet federal accountability

requirements. Middle and secondary schools may consider the student's end-of-course SOL test score in determining the student's final course grade.

Participation in the Virginia Assessment Program by students with disabilities is prescribed by provisions of their Individualized Education Program (IEP) or 504 Plan. All students with disabilities are assessed with appropriate accommodations and alternate assessments where necessary.

Any student identified as an English Learner (EL) participates in the Virginia Assessment Program. A school-based committee convenes and makes determinations regarding the participation level of EL students in the Virginia Assessment Program. In kindergarten through eighth grade, EL students may be granted a one-time exemption from SOL testing in the areas of writing, and history and social science.

Definitions

Authentic Performance Assessment

An "Authentic Performance Assessment" is a test that complies with guidelines adopted by the Board of Education that requires students to perform a task or create a product that is typically scored using a rubric.

Standard Unit of Credit

A "standard unit of credit" or "standard credit" is a credit awarded for a course in which the student successfully completes 140 clock hours of instruction and the requirements of the course. A standard unit of credit may be awarded based on a waiver of the 140 clock hour requirement as provided in Policy IKFD Alternative Paths to Attaining Standard Units of Credit.

Verified Unit of Credit

A "verified unit of credit" or "verified credit" is a credit awarded for a course in which a student earns a standard unit of credit and completes one of the following:

1. Achieves a passing score on a corresponding end-of-course SOL test.
2. Achieves a passing score on an additional test, as defined in 8 VAC 20-131-5, as a part of the Virginia Assessment Program.
3. Meets the criteria for the receipt of a locally awarded verified credit when the student has not passed a corresponding SOL test.
4. Meets the criteria for the receipt of a verified credit in history and social science by demonstrating mastery of the content of the associated course on an authentic performance assessment that complies with guidelines adopted by the Board of Education.
5. Meets the criteria for the receipt of a verified credit for English (writing) by demonstrating mastery of the content of the associated

course on an authentic performance assessment that complies with guidelines adopted by the Board of Education.

Students may also earn verified credits by taking alternative tests to the SOL assessment. Such tests may only be those approved by the Virginia Board of Education, and the student may earn verified credits only by achieving that score established by the Board of Education.

Virginia Assessment Program

The “Virginia Assessment Program” is a system used to evaluate student achievement that includes SOL tests and additional tests that may be approved from time to time by the Board of Education.

GRADUATION REQUIREMENTS

Most Virginia students earn either a Standard Diploma or an Advanced Studies Diploma. In order to earn a diploma, students are required to pass certain courses and verify this achievement by passing Standards of Learning (SOL) tests in English, mathematics, history and sciences. A **verified unit of credit** is awarded for a course in which the student earns a standard unit of credit and achieves a passing score on a corresponding end-of-course SOL test or a substitute assessment approved by the Board of Education.

For students entering the ninth grade for the first time in 2018-2019 and beyond: A verified unit of credit must be earned in the following EOC courses in order to earn a standard or advanced diploma:

- Algebra I
- Biology
- Reading (English 11)
- Writing (English 11)
- Any EOC History course with an SOL test

For students entering ninth grade for the first time in 2013-2014, the following changes related to diplomas will occur:

- A student must earn a Career and Technical Education credential that has been approved by the Board of Education to graduate with a Standard Diploma. The credential could include, but not be limited to, the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, or the Virginia workplace readiness skills assessment.
- Career and Technical Education students must satisfy this requirement with at **least two sequential electives** as required by the Standards of Quality and **must pass at least one examination for industry certification or licensure**. Career and technical students who complete a program sequence and earn two student-selected verified credits by passing a recognized certification or licensure examination may substitute one of these credits for a verified unit of credit in either science or history/social science.
- A student must successfully complete one virtual course, which may be non-credit bearing, to graduate with a Standard or Advanced Studies Diploma.

For students entering ninth grade for the first time in 2012-2013, students must successfully earn a credit in Economics and Personal Finance for graduation.

For students entering the ninth grade for the first time in 2011-2012 and beyond: A student may utilize additional tests for earning verified credit in computer science, technology, career or technical education, economics or other areas as prescribed the Board.

The school counselor can advise on available courses to fulfill the requirements for an Advanced Studies or Standard Diploma.

The Commonwealth of Virginia and Virginia Department of Education may make changes to policies and procedures regarding graduation requirements. In the event that any changes are made, state provisions will supercede school district policies.

Advanced Studies Diploma: Minimum Course & Credit Requirements

To graduate with an Advanced Studies Diploma, a student must earn at least **28** standard units of credit (2 additional credits - local requirement) by passing required courses and electives. First time ninth graders in 2011-2012 and beyond must earn at least **nine** verified units of credit by passing end-of-course SOL tests or other assessments approved by the Board of Education. First time ninth graders in 2018-2019 and beyond must earn at least **five** verified units of credit by passing end-of-course SOL tests or other assessments approved by the Board of Education.

Advanced Studies Diploma Course Requirements				
Discipline Area	Standard Credits	Verified Credits	Standard Credits	Verified Credits
	Effective with ninth grade classes of 2018-2019 and beyond	Effective with ninth graders in 2018-2019 and beyond	Effective with first time ninth graders in 2011-2012 and beyond	Effective with ninth graders in 2011-12 and beyond
English	4	2	4	2
Mathematics	4	1	4	2
Laboratory Science	4	1	4	2
History & Social Sciences	4	1	4	2

Economics and Personal Finance	1		1	
Electives	5		5	
Student Selected Test				1
Total	28	5	28	9

Foreign Language Requirement for Advanced Diploma

Students may fulfill the foreign language requirement by earning either three standard credits in a single language or by earning two standard credits in each of two languages. In 1998, the Board approved three years of instruction in American Sign Language (ALS) for foreign language credits and other foreign languages as well toward satisfying this requirement.

Verified Credits for Advanced Diploma

- Students who entered the ninth grade in 2011-12 and beyond and are seeking an Advanced Studies Diploma must earn a total of at least **nine** verified units of credit, including two in English (reading and writing), two in mathematics, two in science, two in history/social science, and one in a student-selected content area.
- Students who entered the ninth grade in 2018-19 and beyond and are seeking an Advanced Studies Diploma must earn a total of at least **five** verified units of credit, including two in English (reading and writing), one in mathematics, one in science, and one in history/social science.

Most students seeking an Advanced Studies Diploma will earn these required verified units of credit by passing end-of-course SOL tests in English reading and writing, mathematics, science, and history/social science.

Standard Diploma: Minimum Course & Credit Requirements

To graduate with a Standard Diploma, a student must earn at least **24** standard units of credit (2 additional credits - local requirement) by passing required courses and electives. First time ninth graders in 2011-2012 and beyond must earn at least **six** verified units of credit by passing end-of-course SOL tests or other assessments approved by the Board of Education. First time ninth graders in 2018-2019 and beyond must earn at least **five** verified units of credit by passing end-of-course SOL tests or other assessments approved by the Board of Education.

Standard Diploma Course Requirements				
Discipline Area	Standard Credits	Verified Credits	Standard Credits	Verified Credits
	Effective with ninth grade classes of 2018-2019 and beyond	Effective with ninth graders in 2018-2019 and beyond	Effective with first time ninth graders in 2011-2012 and beyond	Effective with ninth graders in 2011-12 and beyond

Economics and Personal Finance	1		1	
Electives	5		5	
Student Selected Test				1
Total	24	5	24	6

Verified Credits for Standard Diploma

- **Students who entered the ninth grade in 2011-12 and beyond** and are seeking an Standard Diploma must earn a total of at least **six** verified units of credit, including two in English (reading and writing), one in mathematics, one in science, one in history/social science, and one in a student-selected content area.
- **Students who entered the ninth grade in 2018-19 and beyond** and are seeking an Standard Diploma must earn a total of at least **five** verified units of credit, including two in English (reading and writing), one in mathematics, one in science, and one in history/social science.

Most students will earn these required verified units of credit by passing end-of-course SOL tests. Students also may earn verified units of credit in English, mathematics, history/social science, and science by passing substitute tests of equal or greater rigor approved by the Board of Education, such as Advanced Placement (AP) tests.

FINAL EXAMS EXEMPTION

Exemption Procedures

The standardized and required testing program prescribed by the Virginia State Department of Education for Surry County School Division will be administered in accordance with state and local regulations.

Students in grades 9-12 taking any high school course with an end-of-course (EOC) SOL test who take and pass the SOL test(s) MAY be exempt from the final examination in that course unless otherwise stated in the course syllabus. Final examinations are scheduled for 90 minutes.

The following criteria must be met for exemptions:

1. Student must be passing the course with a 75% average prior to the final exam.
2. Student must take the SOL test during the regularly scheduled administration of the test.
3. Student has not violated the attendance policy.

In the event that a student in an EOC class meets the criteria to exempt from the final exam, but the student elects to take the final exam, the final grade shall be the higher score from either the converted SOL score or the final exam score.

The following grade conversion will be used for computing student final exam equivalent grades:

SOL Score Range	Grade Per SOL Scaled Score Range
600	100
534-599	93
467-533	86
400-466	73

Adopted:

LOCALLY AWARDED VERIFIED CREDITS

Generally

The Surry County School Board awards verified credits in accordance with Virginia law and Virginia Board of Education regulations.

To be eligible for locally awarded verified credits as credit accommodations, students with disabilities must meet all criteria established by Virginia law or regulation and eligibility for such credit accommodations must be established in the student's Individualized Education Program (IEP) or Section 504 plan.

Review Panels

The Surry County School Board appoints review panels comprised of at least three educators to consider evidence of the student's achievement. Different panels may be appointed for individual schools or groups of schools.

The review panel reviews information which provides evidence of the student's achievement of adequate knowledge of the Standards of Learning content. The panel has discretion in determining the information it considers. That information may include, but is not limited to, results of classroom assessments, divisionwide exams, course grades and additional academic assignments (e.g. papers, projects, essays or written questions) as the panel deems appropriate.

Based on the evidence it reviews, the review panel may:

- award the verified credit;
- deny the verified credit;
- suggest participation in a remedial program and retesting; or
- make additional academic assignments prior to determining whether to award the verified credit.

The decision of the review panel may be appealed to the school board in accordance with regulations developed by the board.

Adopted: August 13, 2019

Legal Refs.: Code of Virginia, 1950, as amended, § 22.1-253.13:3.
8 VAC 20-131-110.

Revised Guidance Governing the Use of Locally-Awarded Verified Credits (Virginia Department of Education May 11, 2018) (attachment to Virginia Department of Education Superintendent's Memo No. 130-18 (May 11, 2018)).

ALTERNATIVE PATHS TO ATTAINING STANDARD UNITS OF CREDIT

Students who enroll in high school as freshmen before July 1, 2018, as sophomores before July 1, 2019, as juniors before July 1, 2020 or as seniors before July 1, 2021 are required to earn standard and verified units of credit as specified in the regulations of the Board of Education. A “standard unit of credit” or “standard credit” is a credit awarded for a course in which the student successfully completes 140 clock hours of instruction and the requirements of the course. The Surry County School Board recognizes that instruction, learning and outcomes equivalent to those achieved in 140 clock hours of instruction can be attained in a variety of ways. Therefore, the School Board waives the requirement that a student receive 140 clock hours of instruction to earn a standard unit of credit as provided below. The total number of standard credits that can be achieved via the waiver option is determined by student needs. Students may earn fractional credits via waiver.

Waivers are available for all secondary courses including Board of Education approved courses, Career and Technical education courses and local elective courses. Elective courses must be approved by the School Board, be explicitly described in the division’s secondary course of study and have clearly defined and publicly available learning objectives commensurate in scope and detail with state learning standards and competencies.

In order to attain a standard unit of credit by means of a waiver of the 140 clock hour requirement

- the outcomes of the work for which standard credit is awarded must be equal to progress and learning achieved in 140 clock hours of instruction;
- upon completion of the assigned work for the course, a student must have demonstrated mastery by meeting specific objectives and performance requirements of the course that match or exceed the expectations of students who have received 140 clock hours of instruction with similar standards, competencies or objectives; and
- the evidence of mastery of the pertinent content and skills for a student receiving a waiver must be fully documented, retained securely by the school division and available for review by the Virginia Department of Education (VDOE) on request.

Procedures

Criteria for awarding a waiver of the 140 clock hour requirement for the course must be clear, objective and clearly communicated to the student and the student’s parents prior to a student embarking on the effort.

The consequences of standard credits achieved by waiver with regard to class rank, grade point average and extracurricular eligibility must also be clearly defined and communicated to students and parents before a student embarks on the effort.

A student must receive approval from the school principal before pursuing the work, task or assessment that is required to meet the waiver criteria.

Miscellaneous

The superintendent will identify a process for developing accommodations for students with limited English proficiency.

Pursuit of credit by waiver by students with disabilities will be prescribed by the student's Individualized Education Program (IEP) or 504 Plan.

Students who attain credit by waiver of the 140 clock hour requirement will receive a grade for the course.

The fact that a student has received credit via waiver will not be reflected on the student's transcript.

A student who is pursuing credit via waiver is enrolled in the relevant course for purposes of determining eligibility for extracurricular activities.

Waiver Pathway Options

Waivers are available by three pathways.

1. Courses that award a standard credit and have less than 140 clock hours of instruction

For students attaining standard units of credit by this waiver method, the school division maintains documentation based on this policy that defines its rationale for the reduction of instructional time and substantive evidence that it provides equivalent instruction with equivalent outcomes in the reduced clock hours.

2. Independent study, work sample portfolio, demonstrated performance and locally developed or Standards of Learning assessment

Evidence of the student's learning must encompass a comprehensive assemblage of media products, artifacts, and performance that demonstrates the student has mastered academically rigorous material and meets or exceeds approved learning standards, competencies or objectives for the course.

The required content and evaluative criteria for the products must be defined prior to the advent of student work and based on the same objectives as the standard course.

The assemblage of evidence and overall process must be managed by a licensed and endorsed teacher in the area of the coursework with a series of program checkpoints throughout a specified timeline for the study. The checkpoints and timeline must be clearly articulated and communicated to the student.

The managing teacher must determine whether the work is of commensurate depth and quality as work performed in the traditional secondary classroom and meets predefined evaluative criteria communicated to the student.

The student must meet a predefined performance level on a locally-developed assessment for the coursework. This may be an oral examination, performance (e.g., recital/concert), written test or some other objective tool or process developed by the school division. Applicable Standards of Learning assessments may also be used for this purpose.

3. Demonstrated achievement via national or international assessments

The assessment must:

- have a standardized administration;
- be determined to be valid and reliable by an external body;
- be used in other states or internationally; and
- be scored independently of the school division.

Before a waiver may be granted under this option, the division must have completed a rigorous review of the assessment, in accordance with this policy, and determined that it is aligned with the course objectives for which the waiver is being requested. The division determines a qualifying score for awarding a standard credit that equates with mastery of the course content and skills and communicates that score to the student.

The student must provide evidence to the school principal or the principal's designee through performance, product, interview and/or school staff professional judgment that the student has some command of the course content and should be allowed to demonstrate mastery-level performance for a standard credit.

The superintendent will develop a process for determining a qualifying score for awarding a standard credit that equates with mastery of the course content and skills.

A student may attempt to achieve the qualifying score 2 times per year.

If the division selects an assessment that has a monetary cost, it will ensure equitable access to this option for all students.

Appeal Process

The superintendent shall appoint a review panel comprised of at least three educators to resolve disputes regarding the attainment of standard units of credit via waivers in accordance with this policy. Different panels may be appointed for individual schools or groups of schools.

The panel may review whether a student was properly denied permission to seek a standard unit of credit via waiver and whether a student was properly denied a standard unit of credit after having been determined to be eligible to seek the standard unit of credit via waiver

Based on the evidence it reviews, the review panel may:

- award the standard credit
- deny the standard credit
- make additional assignments prior to determining whether to award the standard credit

The decision of the review panel will be final.

Continuing Role of State Assessments

While the division may use the Standards of Learning assessments for awarding a standard credit as outlined above, the Standards of Learning assessments will continue to be used in their traditional role as determiners of awarding verified credits.

REMEDATION RECOVERY PROGRAM

The Surry County School Board supports efforts to provide instructional support to those students who have demonstrated a need for such support by their failure to pass certain Standards of Learning (SOL) assessments. Therefor, in kindergarten through grade 12, students may participate in a remediation recovery program as established by the Board of Education in English (reading) or mathematics or both.

RETAKING SOL ASSESSMENTS

Students in kindergarten through grade 8 are not required to retake Virginia Assessment Program tests unless they are retained in grade and have not previously passed the related tests or as otherwise permitted by the Board of Education. Students in high school are required to retake end-of-course SOL tests as determined by the Board of Education.

TESTING PROGRAMS

A program of standardized testing prescribed by the Virginia Department of Education is administered annually. Standardized tests are administered according to state and local directives.

In administering tests or other assessment instruments, School Board employees do not require any public elementary school students being tested to disclose their race or ethnicity on such tests. School division personnel, however, may obtain such information from a student's permanent record and place the information on the test or assessment.

No student or his parent is required to disclose information related to the student's race or ethnicity unless (i) the student or his parent is given an option to designate "other" for the student's race or ethnicity or (ii) such disclosure is required by federal law.

TEACHING ABOUT CONTROVERSIAL ISSUES

The Surry County School Board recognizes that preparation for effective citizenship is one of the major purposes of education. The preparation for effective citizenship includes the study of issues that are controversial. Such study is carried out in an atmosphere free from bias, prejudice, or coercion.

In teaching about controversial issues, teachers are expected to

- establish a learning environment where each student can study the issues within a curriculum that is appropriate to the student's knowledge and maturity; and
- provide instruction in an atmosphere that is free from bias, prejudice, or coercion.

Although the instructional program includes study of the political party system in the United States, the School Board does not endorse any political party or candidate.

Adopted: April 13, 2021

Legal Ref.: Code of Virginia, 1950, as amended, § 22.1-78.

Cross Ref.: KF Distribution of Information/Materials
 JOB Administration of Surveys and Questionnaires

RELIGION IN THE SCHOOLS

The Surry County School Board is neutral in matters of religion. This means that the Surry County schools

- assume no role or responsibility for the religious training of any student and
- do not become involved in the religious belief, disbelief or doubt of any student.

This neutrality does not preclude or hinder the Surry County school division in fulfilling its responsibility to educate students to be tolerant and respectful of religious diversity. The division recognizes that one of its educational responsibilities is to advance the students' knowledge and appreciation of the role that religion has played in the social, cultural and historical development of civilization.

Therefore, the division approaches religion from an objective, curriculum-related perspective, encouraging all students and staff members to be aware of the diversity of beliefs and respectful of each other's religious and/or non-religious views. In that spirit of respect, students and staff members may be excused from participating in activities that are contrary to their religious beliefs.

The School Board may authorize, as an elective in grades nine through 12 with appropriate credits toward graduation, a comparative religion class that focuses on the basic tenets, history, and religious observances and rites of world religions.

Adopted: July 8, 2014

Legal Refs.: U.S. Const. amend. I.

Code of Virginia, 1950, as amended, §§ 22.1-78, [22.1-202.1](#).
